Special Effects: F/X Permit #

Type	No. Times Per Day	No. Takes Per Take

Description of F/X Scene: Our hosts will test a common zIp up plastic bag, a dry bag that is used for river rafting and they'll also test a ruggedized water proof case. They'll subject them to everything from a light drizzle to a torrential downpour to a float on the water, all the way to an extreme dunk in 15 feet of water. We will test new sandbag type products to protect a house (using a shed) from a flood. Hosts will utilize the oncoming tide to simulate a flood and test huge water sacks that create a temporary dam that fights the water with water. They'll also test small pillows of super absorbent chemicals to make a wall of water bags in an attempt to fight the damaging flood and protect a house.
